What is **Bufo?**

Bufo comes from a toad that secretes a liquid substance out of a gland on its spine. That liquid substance is 5meoDMT - the most powerful psychedelic known. It's incredibly healing and takes you back "home" to source, the universe, god, whatever you want to call "it." It shows you what you need to see for greater healing and guidance very potently and directly.

The substance, 5meoDMT, is released two times in our life. Once when we are born we are flooded with it & the second time, when we leave our physical body (ie when we die). So this medicine is known as the spirit molecule. It naturally lives within us and is said to be our spiritual connection to the divine.

It helps give resolution of the past, integration of life lessons, clarity, and direction, purpose and greater meaning, deeper connection to oneself, trauma healing, ptsd healing, depression, anxiety, the list goes on and on. It can be a solution to chronic physical ailments as well.

Whether or not If you have a clear intention, this medicine will support your growth and evolution as a human walking with grace while on earth.

What are Magic **Mushrooms?**

Psilocybin is becoming more and more known and recognized for its superintelligent qualities in helping bridge neural pathways and connections that were otherwise nonexistent.

The mycelium within psilocybin is a recycling agent in nature and decomposes, recycles, and re-creates everything that has ever existed on our earth. It holds within it access to ancient wisdom and has the possibility of connecting us to our spiritual guides, angels, and access to other spiritual dimensions for greater self-realization and healing.

It can be gentle or quite powerful and potent depending on the dosage you take. This sacred medicine can help give resolution of the past, integration of life lessons, clarity, and direction, purpose and greater meaning, deeper connection to oneself, trauma healing, ptsd healing, depression, anxiety, the list goes on and on. It can be a solution to chronic physical ailments as well.

Whether or not If you have a clear intention, this medicine will support your growth and evolution as a human walking with grace while on earth.

Testimonials

Today's Good Friday, I had my 1st dose experience of BuFo with Ashtar & Jun. An eye opening experience I will not forget. The moment I took my first hit of 50mg I transcended into a kaleidoscope of pink fluffy ink cloud soaking in an abyss of darkness.

From there, I discover my inner wounded child and I began to tear up. Listened to what Ashtar mentioned earlier about soul contract, even though it seems one sided with someone close to me. If I need to let go, I let go.

I found myself untying loose ends that were bound to my childhood. My younger adult days, my addiction that bounds me so tight I could never let go. Eventually as an adult, I see myself assuring my younger child that it's ok, that I'm good enough, that I'm worthy, I'm smart, I'm kind and caring. That I don't need any external validation. Not even my close friends.

I found resonance in connecting my wounded child and slowly comfort and assured him that everything will be ok.

Retreat

Testimonials

As we were on the mushroom journey, this wave was another form of energy transfer whereby I felt my inner demons that were suppressed were exorcized and dispel from my body.

I felt the wave of Shiva destroying and cutting off the heads of desire/lust, envy, manipulation, malice, obsession & compulsion.

Tears were pouring out again and this time, there were tears of joy, gratitude and freedom whereby I experience white light energy transcending towards me.

I felt my spirit guides are cloaking me in stillness and calmness of blue serenity and my heart begins to open up this time with compassion and loving peace towards individuals I had resentment towards in the past.
